

# Higher Efficiency Dust Collector Filters Are Just a Phone Call Away!

There are two keys to air filtration:

- (1) providing the smallest filtration openings in order to trap the smallest of dust particles, and
- (2) having the ability to easily clean these particles off of the filter's surface in order to promote longer filtration times.

Donaldson Torit's patented Ultra-Web® and Dura-Life® filter media form the tightest webs with very small interfiber spaces for:

- Cleaner air
- Reduced maintenance
- Less downtime
- Fewer filter changes
- Longer life
- Greater savings

Hundreds of different style filter cartridges and bags are now available to fit Torit and most other manufacturers' collectors, with more being added to the roster every day.

Torit can also duplicate just about any filter cartridge or bag. Put the unique advantages of Torit to work for you. Contact:
