IceStorm 90⁺

The IceStorm90+™ blasting machine is the most efficient and environmentally friendly industrial cleaning tool in the industry. The design basis focused on simplicity, which translates through to the exterior, operational controls, and internal workings of the unit.

NEW FEATURES

Dual Ice

The IceStorm 90+ is the worlds first blasting machine to use both H2O ice and CO2 ice in the same machine.

Less Water

The IceStorm 90+ uses 95% less water than traditional blasting and produces negligible airborne contaminants, make there less water waste to clean up and less waste to recycle.

Applications

The same uncompromised performance of the IceStorm 90 tackling countless applications; lead paint abatement, asbestos removal, marine, grafitti, pulp & paper, food industry, fire & building restoration and many more.

95% **REDUCE YOUR OPERATING MEDIA COSTS**

UNCOMPROMISED PERFORMANCE

- Non-pressurized hopper
- 90 lbs ice/ 200 lbs of dry ice
- 120V /12A North American
- or 230V/8A European version
- WEIGHT:** 535lbs
- Compact:** 42"x28"x4 7"(LxWxH)
- OPERATING PRESSURE:**
 - 80PSI -200PSI (200psi in - 190psi out)
- 185 CFM -425 CFM
- Simple operational controls
- PSI gauges measuring pressure in and out
- Variable feed rate: 0 -5 lbs per minute
- Anodized exterior panels
- 24 month or 1200 hr warranty
- Lower levels of airborne contaminates
- Superior internal ice crusher
- Finely tuned to increase life cycle and efficiency.
